

# ZZYZX<sup>®</sup> SNAP JACK<sup>™</sup>

**For Immediate Release**  
Thursday, August 20, 2009

## ***SnapJack Cables Welcomes littleSUNDAY To The Endorsement Family***

Canada's indie band littleSUNDAY, announces their newest endorsement with SnapJack cables. The ZZYZX Snap Jack cable is a revolutionary cable that detaches in the event of excessive stress. The ends attach magnetically to the cord using strong neodymium magnets. The result is a practical and very safe cord configuration.

SnapJack boasts clarity and quality in their product, and it's no surprise to see the satisfied list of endorse es and valued clients growing everyday! Say goodbye to those speaker hums most cords produce on stage, and welcome SnapJack.

littleSUNDAY lead guitarist JP is no stranger to stage management, and when asked about SnapJack cables, he said,

*"SnapJack cables are a godsend. It allows musicians like me to make rapid guitar changes between songs and avoid clumsy accidents that can damage my guitar or amp! We are very excited to support SnapJack cables!"*

littleSUNDAY is currently endorsed by Dot On Shaft Guitars ( [www.dotonshaft.com](http://www.dotonshaft.com) ), and is proud to welcome SnapJack cables into the endorsement family!
